Medshield,
where your healthcare journey
and our commitment intertwines

Medshield Medical Scheme - Your Healthcare Partner for Life

Established in 1968 we are a trusted name in the healthcare cover industry. As a member of Medshield you can Live Assured knowing you have a healthcare Partner for Life.

- Affordable Benefit Options (9), innovatively designed to provide consistent cover for different healthcare needs and trends throughout life.
- Highly effective managed care programmes focussing on members' health and wellbeing.
- Solid relationships with healthcare professionals and hospital groups nationally enable easy access to care.
- Innovative healthcare programmes and extra value benefits focusing on members' health and wellbeing.
- The Scheme has a commitment to service excellence embodied in the tailor-made approach to servicing and client retention activities.
- The Medshield website login zone and the Mobile App online platforms are available to service our members, at their convenience – 24/7.
- The Council for Medical Schemes (CMS) confirmed Medshield's Self-Administration Accreditation. This means that we are able to keep our member contributions low, whilst ensuring the financial stability of the Scheme since we do not pay a separate organisation to administer the Scheme.
- As a not-for-profit entity, we are solely constituted for our members. Medshield has a very low administration fee.
- Medshield is ISO 9001:2015 certified which means our Quality Management System is of International Standard and delivers on member satisfaction – proving that our service structures is effective.
- The Scheme is accredited as a Financial Services Provider with the Financial Services Conduct Authority. This enables our registered representatives to provide financial advice to members to suitably address their unique, individual healthcare needs.
- Medshield has a proven claims-paying ability with an AA- GCR-rating for the 16th consecutive year.
- Strong solvency rate/reserve is testament to financial stability enabling the Scheme to subsidise portions of the annual contribution increases and provide more benefits to members at a lower cost.

MediPhila Benefit Option

MediPhila is ideal for families seeking first-time access to affordable private medical cover. As a MediPhila member, you have full cover for Prescribed Minimum Benefit (PMB) treatment plus R1 million per family for non-PMB In-Hospital treatment in the MediPhila Hospital Network. Coupled with this is Day-to-Day cover for your essential daily healthcare needs.

This is an overview of the benefit categories offered on the MediPhila option

Important Member Information

Information members should take note of:

Carefully read through this Guide and use it as a reference for more information on what is covered on the MediPhila option, the benefit limits, and the rate at which the services will be covered:

Hospital Pre-Authorisation
You must request pre-authorisation 72 hours before admission from the relevant Managed Healthcare Programme.

Hospitalisation Cover
Is subject to the use of the MediPhila Hospital Network. Voluntary use of a non-MediPhila Network Hospital will result in a 25% co-payment.

Penalty if you don't pre-authorise
If you do not obtain a pre-authorisation or retrospective authorisation in case of an emergency, you will incur a 20% penalty on top of the 25% co-payment should you use a non-MediPhila Network Hospital.

Scheme Rules/Protocols
Pre-authorisation is not a guarantee of payment and Scheme Rules/Protocols will be applied where applicable.

List of Exclusions & Co-Payments
Carefully read through your List of Exclusions for a list of services not covered on the MediPhila option. Please refer to Addendum F for the comprehensive list of Exclusions.

Designated Service Providers (DSPs)
The Scheme uses DSPs for quality and cost-effective healthcare. Make use of the applicable DSPs to prevent co-payments. The use of the Medshield Specialist Network may apply.

Medical Specialist Consultations
You have to be referred by your nominated MediPhila Network Family Practitioner. A co-payment will apply if members use Medical Specialists without referral, pre-authorisation or use non-Network providers.

Networks
Use the relevant MediPhila Networks where applicable to avoid co-payments. These are available on our online tools e.g. website and Member App, or from the Medshield Contact Centre.

Gap Cover

Gap Cover assists in paying for certain shortfalls not covered by the Scheme based on the Scheme Rules. Assistance is dependent on the type of Gap Cover chosen. Medshield members can access Gap Cover through their Brokers.

Online Services

It has now become even easier to manage your healthcare! Access to real-time, digital applications allow members to access their medical aid information anywhere and at any time.

1. The Medshield Login Zone on www.medshield.co.za.
2. The Medshield Member App: Medshield's Apple IOS app and Android app are available for download from the relevant app store.
3. The Medshield Short Code SMS check: SMS the word BENEFIT to 43131, and receive a summary of available benefits. Mobile charges may apply.
4. Medshield E-Card: SMS the word "card" to 44292 and you will get an immediate response with a link to your electronic card. To open the link use the pin sent to the phone number registered with Medshield. Mobile charges may apply.

Medshield Hospital-at-Home Benefit

All Medshield members are entitled to cover for Prescribed Minimum Benefits (PMBs), irrespective of your chosen benefit option. Medshield's Hospital-at-Home service, delivered by Quro Medical, offers safe alternatives to hospitals as the centres of patient care and management. The Hospital-at-Home service gives members the option to receive active treatment for a specified period at home instead of a general hospital ward, without compromising on the quality of care.

Hospital-at-Home will not replace the quality care that only a hospital can provide, but should be seen as a complementary service in specific instances. In fact, research shows that patients recover better and faster in their own homes – resulting in improved health outcomes and a more positive experience. Some patients are more vulnerable to hospital-acquired infections and developing new health complications. Therefore, they may benefit from receiving care at their home. Patients eligible for Hospital-at-Home are those who would usually need admission in a hospital general ward.

Quro Medical works closely with each patient and his or her treating doctor to develop a personalised treatment plan that can be delivered at home. During treatment, a patient's medical needs may change and, if necessary, treatment plans would be amended accordingly. The Quro Medical clinical team schedules regular home visits, daily or more frequently, depending on individual need, to deliver the treatment and care required. Other channels are also available that give patients access to advice and support outside of home visits.

Elements of care provided through the Hospital-at-Home service:

- Your doctor can monitor your condition day and night using digital technology. Additionally the service provides real-time hospital-grade monitoring at home by continuously collecting vital sign data (usually monitored in the hospital) wirelessly and automatically, and this data is closely monitored by a team of healthcare professionals in a 24-hour medical command centre
- Intravenous therapy
- In-person and virtual visits
- Skilled nursing
- Access to laboratory services, allied healthcare services e.g. physiotherapy, and short-term oxygen
- Rapid response protocols – if a patient's condition should worsen during treatment, the clinical team from Quro Medical will identify such changes and make the necessary arrangements, which may include an increase in visits, early review by the treating doctor and, rarely, transfer to hospital

Benefits of Hospital-at-Home

- Faster recovery and a better healthcare experience
- Care tailored towards the member's individual needs
- Recovery in a comfortable and familiar environment
- Fewer health complications and re-admission

This service will be funded from members' Alternatives to Hospital benefit in line with hospital benefit management protocols. At home treatment and monitoring is an alternative to a hospital admission and requires the consent of the patient. Members can either be referred to Quro Medical by their treating doctor, or they can request this service from their doctor when general ward admission is considered, or when they wish to be relocated to the home earlier during a hospital admission. Please note that this service needs to be pre-authorised and approved through the hospital pre-authorisation process by emailing **preauth@medshield.co.za**.

This is just the latest innovation that the Scheme has added to ensure our members always have access to safe, convenient and quality care when they need it most.

For more information, please call **Hospital Benefit Management** on **086 000 2121** and follow the prompts.

Your guide to access your MediPhila In-Hospital Benefit

Before you or any of your registered dependants are admitted to hospital, it is important that you know which hospitals form part of the MediPhila Hospital Network to obtain hospital pre-authorisation. If you are hospitalised, your stay will be subject to the period that was pre-authorised by the Hospital Benefit Management. No further benefits will be paid unless such a stay is further authorised. Hospital pre-authorisation can be initiated by the member, medical practitioner or the hospital at least 72-hours before admission, or the first working day following an emergency admission.

What is hospital pre-authorisation?

Every member has to obtain pre-approval or pre-authorisation from the Scheme before the member, or their dependants, are admitted to hospital. The Scheme will provide pre-authorisation, upon your request, in line with the benefits available for the specific procedure or treatment, prior to admission. The pre-authorisation process ensures added value for both the member and the Scheme by assessing the medical necessity and appropriateness of the procedure prior to hospital admission according to clinical protocols and guidelines.

The following information is required when requesting pre-authorisation for hospitalisation

- Membership number
- Member or beneficiary name and date of birth
- Contact details
- Reason for admission
- ICD-10 codes and relevant procedure (tariff codes)
- Date of admission and date of the operation if applicable
- Proposed length of stay
- Name and practice number of the admitting doctor
- Name and practice number of the hospital

Which hospital am I allowed to use?

MediPhila Hospital Network. Please contact the Scheme on 086 000 0376 (+27 10 597 4703)
or vist www.medshield.co.za to access a list of hospitals.

Why it's important to pre-authorise?

- Your hospital stay will be subject to the procedure or service pre-authorised by the Hospital Management partner
- Any additional days or multiple procedures or additional services will require further pre-authorisation or motivation

In the case of an emergency admission, retrospective authorisation must be obtained on the first working day following an emergency admission. Should a member fail to obtain pre-authorisation, the Scheme will not settle any claims related to the admission.

What if my hospital admission is postponed or I'm re-admitted, even if I have pre-authorisation?

You will have to update your pre-authorisation with Medshield Hospital Benefit Management with the relevant date before you are admitted. If you are re-admitted for the same condition you will have to obtain a new authorisation as authorisations are event driven.

What is an emergency?

It is not enough for a medical emergency to be diagnosed only. The Council for Medical Schemes (CMS) script on what an emergency is, states that a condition is an emergency if you require immediate treatment for serious impairment to bodily function.

"All medical emergencies are prescribed minimum benefits (PMBs) which require full payment from your medical scheme. But diagnosis alone is not enough to conclude that a condition is a medical emergency. The condition must require immediate treatment before it can qualify as an emergency and, subsequently, a PMB."

So when is a medical condition an emergency?

The Medical Schemes Act 131 of 1998 defines an "emergency medical condition" as "the sudden and, at the time, unexpected onset of a health condition that requires immediate medical or surgical treatment, where failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a body organ or part, or would place the person's life in serious jeopardy".

Put simply, the following factors must be present before an emergency can be concluded:

- There must be an onset of a health condition
- This onset must be sudden and unexpected
- The health condition must require immediate treatment (medical or surgical)
- If not immediately treated, one of three things could result: serious impairment to a bodily function, serious dysfunction of a body part or organ, or death
- If you are not treated for your condition and only tests are conducted, your medical scheme does not necessarily need to cover your condition because tests are diagnostic measures which are not covered by the definition of an emergency. If you are treated, you can claim the cost of treatment because it cannot reasonably be argued that a health condition is an emergency only if the diagnosis is confirmed

Is pre-authorisation required even if I use a hospital within the MediPhila Hospital Network?

Yes, all hospital admissions require pre-authorisation before admission and retrospective authorisation is required for emergencies. All hospital authorisations must be done through the Medshield Hospital Benefit Management Provider on 086 000 0376.

Out-of-Hospital Benefits

The Out-of-Hospital Benefit covers services obtained Out-of-Hospital. These services will be paid from your Out-of-Hospital limit, unless specified otherwise. Your Family Practitioner (FP) Limit is allocated according to your family size, and subject to the nominated Family Practitioner each beneficiary nominates one Family Practitioner, selected from the MediPhila Family Practitioner Network, to a maximum of two Family Practitioners per family. Through a partnership with various service providers, the Scheme is able to ensure that you receive optimal care for these essential Out-of-Hospital services.

What services are covered under the Out-of-Hospital Benefits?

The following services are covered from specific sub-limits:

- Family Practitioner visits – Covered from the FP benefit limit
- Acute Medicine – Covered from the Acute Medicine Benefit
- Specialist Visits – Covered from the Specialist visit benefit
- Casualty or Emergency visits – Covered from the Day-to-Day Limit, unless authorised as an emergency
- Basic Dental services – Covered from the Basic Dentistry Limit
- Optical Services – Covered from the Optical Benefit
- Radiology and Pathology – Subject to Formularies

Family Practitioner Visits

Each beneficiary is required to use a MediPhila Network Family Practitioner (FP). The Scheme has a list of all the providers that are part of the Network. This MediPhila Network Provider list is available on the website www.medshield.co.za or from the MediPhila Contact Centre.

You have access to the allocated number of Family Practitioner (FP) visits that are indicated in this benefit guide without needing pre-authorisation. Once you reach the allocated number of visits, you will need pre-authorisation to access the unlimited benefits. This can be done by having your FP contact the MediPhila Contact Centre (086 000 0376) to obtain authorisation for each and every additional visit. These additional consultations are subject to Scheme Rules, protocols and prior approval.

Out-of-Network Family Practitioner Visits

The Scheme Rules allow for up to two visits per family paid from the Overall Annual Limit. A list of all FPs contracted on the MediPhila Network is available on the Scheme website or you can contact the Medshield Contact Centre to enquire about a FP in the area where you find yourself. Please note that the unlimited FP benefit does not apply to out-of-network visits.

Minor Procedures while visiting the FP

Certain minor procedures done in the FP consultation room will be paid from the Overall Annual Limit if done by a Network FP; these include stitching of wounds, limb casts, removal of foreign bodies and excision, repair and drainage of a subcutaneous abscess, and the removal of a nail. If these services are performed by a non-Network Provider these costs will be covered from your Day-to-Day Limit. Refer to Addendum C for a full list of services.

Casualty and Emergency Room Cover

Should you or your family have to go to a casualty or emergency room at a hospital due to medical necessity, the account for the Casualty will be paid from your available Day-to-Day Limit and the doctor attending to you will be paid from your out of network FP benefit.

Acute Medication

The MediPhila option offers members a separate Acute Medication limit subject to the Acute Medication formulary. If medication is dispensed from your FP, this cost will be included in your FP consultation but should it be required that you get your medication from a MediPhila Network Pharmacy, this cost will come from your Acute Medication Benefit. It is important that you make your FP/Pharmacy aware that your option has an acute formulary as any medication not on the formulary will not be covered. Schedule 1 and 2 medications offered as Pharmacy Advised Therapy (PAT) will be covered from your Acute Medication Benefit subject to a **R100** script limit and 1 script per beneficary per day.

Reference pricing is applied. If a product is prescribed that is more expensive than the reference price, the patient will need to pay the difference in price at the point of dispensing.

- Quantity limits may apply to some items on this formulary. Quantities in excess of this limit will need to be funded by the member at the point of dispensing, unless an authorisation has been obtained for a greater quantity
- Other generic products not specifically listed will be reimbursed in full if the price falls within the reference price range for that group
- The formulary is subject to regular review. Medshield reserves the right to update and change the formulary when new information becomes available, prices change, or when new medicines are released
- What happens once you have reached your Day-to-Day Limit?
  - The services that are covered under your Day-to-Day Limit offers a pre-determined sub-limit. Once these sub-limits have been reached, members will be required to cover the cost out of pocket

Access to Basic Dental Services

The benefit includes primary dentist care e.g. consultations, fillings, scaling and polishing, and must be obtained from the MediPhila Dental Network. There is no benefit for Specialised Dentistry like root canal treatment, crowns and metal base dentures.

Medical Specialist Consultations

For Medical Specialist Consultations you have to be referred by a MediPhila Network FP Provider:

- The MediPhila Network Family Practitioner (FP) Provider is required to obtain a Specialist referral authorisation from the Scheme;
- It is important to note that you will be liable for a 40% co-payment for Medical Specialists' Consultations obtained outside these stipulated guidelines.

Access to Pathology and Radiology Services

The MediPhila FP Provider will refer you to the appropriate pathology and radiology healthcare provider.

- Radiology and Pathology formularies apply as per managed care protocols;
- All tests that falls within the formularies will be paid from the Overall Annual Limit in line with managed care protocols; and
- Any additional pathology and radiology tests that falls within PMB level of care will need to be motivated by a MediPhila FP.

Access to Optical Services

Spectacles, frames and lenses are covered at **R940** per beneficiary over a 24 month Optical Service Cycle and must be obtained from the Scheme's preferred provider. Kindly note that any additional services such as tinting etc. are not covered under this benefit. You will have to pay for these services yourself. Eye tests are limited to one test per beneficiary every 24 months. The Optical Benefit is available per beneficiary, over a 24 month Optical Service date cycle.

30% Upfront co-payment
will apply in the following instances:

- Out-of-formulary medication voluntarily obtained.
- Medication voluntarily obtained from a non-Medshield Pharmacy Network Provider.

This option covers medicine for all 26 PMB CDL's and an additional condition.

Re-imbursement at Maximum Generic Price
or Medicine Price List and Medicine Formularies. Levies and co-payments to apply where relevant.

BENEFIT CATEGORY	BENEFIT LIMIT AND COMMENTS
• The use of the Chronic DSP is applicable from Rand one. • Supply of medication is limited to **one month** in advance.	Limited to PMB. Medicines will be approved in line with the Medshield **Formulary** and is applicable from Rand one.

How to apply for your Chronic Medicine

If you have been diagnosed with a chronic condition you will require long-term medication. It is important to register your chronic medication so the payment of your medicine can be covered from your Chronic Medicine benefit and not your Day-to-Day allocation or Savings.

Follow these easy steps:

STEP 1

Your doctor or Pharmacist can call Mediscor on **086 000 2120** (Choose option 3 and then option 1) or email **medshieldauths@mediscor.co.za**.

You will need the following information:

- Membership details: Benefit Option name and your membership number
- Patient details: Name, Dependant code (on the back of your membership card) and date of birth
- Your Doctor's details: Initials, surname and practice number
- Diagnosis details: What chronic condition has been diagnosed and the ICD-10 code
- Prescribed medicine: Medicine name, strength and dosing frequency

If additional information or a motivation is required, we will contact you and/or your treating doctor.

STEP 2

Your registration will be evaluated in line with the Scheme Rules and Protocols by in-house qualified and registered pharmacists and pharmacy assistants.

Your application will be processed according to the formularies appropriate for the condition and Benefit Option.

Different types of formularies apply to the conditions covered under the various Benefit Options. You can check online if your medication is on the formulary for your Benefit Option by visiting www.mediscor.co.za/search-client-medicine-Formulary/. If your medicine is not on the formulary for your Benefit Option you can ask your doctor if there is an alternative available that is on the formulary otherwise you will be liable for an upfront co-payment.

STEP 3

You will receive a standard medicine authorisation and treatment letter once your application for chronic medication have been processed.

If your registration requires additional test results or a motivation, you should follow up with your treating Doctor to provide this information.

STEP 4

Take your script to the Chronic Medicine Designated Service Provider (DSP) Network for your Benefit Option and collect your medicine or have it delivered to your home.

Visit your Doctor without leaving your home!

VIRTUAL FAMILY PRACTITIONER CONSULTATION

You can now consult with a qualified Family Practitioner (FP) via computer, smartphone or tablet from the comfort of your home or private space - all you need is an internet connection!

Our partnership with Intercare gives all members reliable and secure access to video consultation with a FP through our Virtual FP Consultation portal on the home page of the Medshield website.

HOW DOES IT WORK?

STEP 1

Click on the link on the Medshield home page at www.medshield.co.za and follow the Virtual Family Practitioner Consultation link. (see image below)

You can also use the Medshield App. A SmartCare icon is available under Member Tools. Select SmartCare and a new screen will open with the Virtual Consultation link.

The Medshield Member App is available for download from the relevant Apple IOS, Android or Huawei store.

STEP 2

Once you followed the link you need to enter the patient details on a virtual form. After submitting the form a system check confirms that you are a valid member and that you have benefits available. Your benefits is included in your Family Practitioner: Out-of-Hospital benefits for your Benefit Option.

STEP 3

You will receive a SMS with an OTP on the number you have entered on the form. By entering the OTP, you consent to the Virtual Consultation and you will be placed in a queue for the next available Doctor to consult with you.

STEP 4

During the consultation the Family Practitioner might suggest a sick note, or prescribe medicine and will email this to you to the address you added in Step 2 on the Patient Detail form.

STEP 5

Please note that only scripts up to and including Schedule 4 medication may be e-mailed to a patient. Higher scheduled medicine will only be accepted by pharmacies enabled with electronic scripting. The consulting Doctor can provide further guidance.

Prescribed Minimum Benefits (PMB)

Introduction

All Medshield members are entitled to cover for Prescribed Minimum Benefits (PMBs), irrespective of your chosen benefit option. Medshield covers the cost of treatment for a PMB, provided that the services are rendered by a provider that is one of Medshield's Designated Service Providers (DSP) and according to the Scheme Rules.

This document provides detailed information on how Medshield covers PMBs, both if you are admitted to hospital (In-Hospital) or receive treatment without being admitted to hospital (Out-of-Hospital).

Please note that PMBs have specific requirements according to the Scheme Rules, and these vary depending on your chosen benefit option. It is therefore important that you take note of your benefit option and the PMB requirements pertaining to your option, as detailed in this Guide.

What is a Prescribed Minimum Benefit (PMB)?

The Medical Schemes Act 131 of 1998 stipulates that all medical schemes have to cover the costs related to the diagnosis, treatment and care of the following:

1. Any life-threatening medical emergency
2. A defined set of 26 Chronic Disease List (CDL) conditions
3. 271 DTP diagnoses

The Council of Medical Schemes website at *www.medicalschemes.co.za/resources/pmb/* provides the list of conditions identified as Prescribed Minimum Benefits.

Explaining the various terms and what they mean when talking PMB's

TERM	DESCRIPTION AS IT RELATES TO PMBs
Care Plan	A plan with details of approved treatment, Doctor visits, pathology, radiology etc. to treat your condition. For the 26 CDL conditions and the 271 DTP (Non-CDL conditions) an annual Care Plan will be generated upon approval of a PMB application. The PMB application form is available on **www.medshield.co.za**. **Important:** If you need additional treatment or benefits than what is stipulated on the Care Plan, you need to apply to the Scheme. (Please refer to the 'Your Medshield Cover for PMB' section of this document for more details per benefit option).
CDL Chronic Disease List	A defined list of 26/27 chronic conditions that we cover according to the Medical Schemes Act.
Co-payment	This is an amount that you need to pay towards a healthcare service/or treatment. • A co-payment can be levied on specific procedures/services/treatment, and is specified in your specific option's benefit guide available on *www.medshield.co.za*. • A co-payment is also the difference between the cost of the service provider and the amount the Scheme pays, as detailed in your option's benefit guide. To minimise co-payments it is important that you obtain healthcare services from the dedicated DSPs on the various networks for your chosen benefit option, available on *www.medshield.co.za*.
Day-to-Day Limit	The Day-to-Day limit is an allocation to members from Risk. The Day-to-Day limit is available on the MediBonus, MediPlus Prime & Compact, MediValue Prime and Compact and the MediPhila benefit options.
DSP Designated Service Providers	Each benefit option has specific networks of Designated Service Providers, which are healthcare providers (such as doctors, specialists, pharmacies, hospitals, optometrists and dentists) who provide treatment to Medshield members at a contracted rate. You are encouraged to use only these DSP's for healthcare services to ensure that you don't have to pay co-payments. Visit *www.medshield.co.za* and click on Member Networks under the Member tab or click on Networks on the Medshield app to view the full list of DSPs per benefit option.
DTP Diagnosis and Treatment Pair	A Diagnosis and Treatment Pair links a specific diagnosis to a treatment based on best practice healthcare and affordability of the treatment, and broadly indicates how these 271 DTP PMB conditions should be treated. Should there be a disagreement about the treatment of a specific case, the standards (also called practice and protocols) in force in the public sector will be applied.
Hospital Plan	Medshield's Hospital Plan (MediCore & MediSwift) do not have a Savings or Day-to-Day Limit.

TERM	DESCRIPTION AS IT RELATES TO PMBs
In-Hospital	Treatment received whilst admitted in a hospital.
ICD-10	ICD-10 code is an international diagnostic coding standard owned and maintained by the World Health Organisation (WHO).
Out-of-Hospital	Treatment received without being admitted to a hospital.
PMB	The Medical Schemes Act 131 of 1998 stipulates that all medical schemes have to cover the costs related to the diagnosis, treatment and care of a defined list of conditions. These conditions are available on the Council for Medical Schemes' website at *www.medicalschemes.co.za/resources/pmb/*.
PMB Level of Care	The treatment needed for your PMB condition, based on the guidelines and established practices at most public hospitals or government facilities.
Risk (OAL)	The Scheme covers the costs, and it is not taken from your benefits as shown on your option's benefit guide.
Related Claims	Any claim from a healthcare service provider other than the hospital account, for one specific healthcare event and treatment/services that stems from that event.
Savings	Personal Medical Saving Account consist of actual contributions received from members. These are available on the PremiumPlus and MediSaver benefit options.
Scheme Rules	According to the Medical Schemes Act, the Scheme Rules of a medical scheme shall be binding on both the Scheme and its members. The Rules contain the exact details of benefits payable by the medical scheme and include the specific benefits pertaining to each benefit option, the rate of reimbursement, sub-limits or co-payments that may apply, exclusions, the use of DSPs etc. All medical scheme memberships are governed by the Rules of the medical scheme that regulate the relationship with all members equally. The Scheme Rules can be requested via the Medshield website on *www.medshield.co.za*.

Important checklist about accessing benefits for a PMB condition

- The condition must qualify as a PMB and must be on the Chronic Disease List or 271 DTP, or a life-threatening medical emergency
- When diagnosed your treatment must match those in the defined benefits available on the PMB list. Check whether your chosen benefit option qualifies as PMB Level of Care payment or PMB, as some options allow richer treatment than what is specified as PMB Level of Care
- It is important to use the Designated Service Providers as specified on your chosen benefit option. If your option has preferred networks for chronic medicine, hospitals, pharmacies or healthcare providers, you have to obtain services from those providers otherwise you might be liable for a portion or the whole cost, or it might pay from your Day-to-Day allocation or Savings portion
- Scheme Rules apply – even if your condition is identified as a PMB you have to follow the rules as set out by your benefit option
- Review the requirements in this Guide to ensure you complete a PMB application form when required

Your Medshield Cover for a PMB

PMB cover can be divided into 2 groups:

1. In-Hospital admissions for the treatment of a PMB
2. Out-of-Hospital management of a PMB condition

1. In-Hospital admissions for the treatment of a PMB

If you are diagnosed with a PMB condition that requires hospitalisation, you have to follow the Medshield hospital authorisation process. All costs for stay and treatment has negotiated rates so it is important for you to use a hospital that is part of the Hospital Network on your chosen benefit option. Specialist services obtained whilst admitted is paid at the Scheme rate. If the Scheme rate does not cover the full amount of the claim, you need to apply to the Scheme and request that the Specialists rate be paid at cost instead of the Scheme rate via **pmbapplications@medshield.co.za**. The Scheme will review the request and might request additional information.

2. Out-of-Hospital treatment and management of a PMB

26 CDL CONDITIONS

If you have been diagnosed with a condition that forms part of the CDL list:

- Apply to Mediscor to obtain authorisation. Contact details are available on the Scheme website at *www.medshield.co.za*.
- If your condition changes or you require additional treatment after the treatment on your Care Plan has been used, you need to complete a PMB Application form together with your treating provider to obtain authorisation and approval. The PMB Application form is available under the member tab of on the Scheme website at *www.medshield.co.za*.
- If approved, you will receive a new Care Plan with the additional treatment specified.

It is important to note that payment for these conditions are benefit option specific:

- **MediBonus, MediPlus Prime and Compact, MediValue Prime and Compact, MediPhila**
  The Day-to-Day limit on your benefit option or plan is an allocation given to members from Risk. Therefore a PMB will pay from your Day-to-Day limit until it is depleted then pay from Risk until the allocated services on your Care Plan has been used. If you require additional services that is not listed on the Care Plan, you together with your treating provider, need to complete a new PMB Application form. (Clinical Protocols apply).

- **PremiumPlus, MediSaver**
  Personal Medical Savings Accounts consist of actual contributions received from members, and therefore the costs of the treatment detailed on the Care Plans are paid directly from Risk (OAL). If a member has paid out of pocket for services that was approved and appear on the Care Plan, then the member can request the Scheme to reprocess those claims. It is important to note that this applies only to the services listed on the approved Care Plan.

- **MediCore, MediCurve and MediSwift**
  The costs of the treatment detailed on the Care Plans are paid directly from Risk (OAL).
  For additional treatment members need to complete a PMB application form.

271 DTP CONDITIONS

- Members on all options that has been diagnosed with a DTP condition need to, together with their treating doctor, complete a PMB application form with details of treatment required.
- If you do not complete a PMB Application form the treatment will be paid from your available Day-to-Day or Savings, and if depleted you will be liable for the costs.
- Submit the PMB Application form to *pmbapplications@medshield.co.za.*
- Once clinically reviewed and approved you will receive a Care Plan (treatment plan) which details the approved treatment that are covered for your condition.

COVID-19 as a PMB

Covid-19 is included under the respiratory DTP PMB conditions. When you suspect that you have COVID-19, you will most likely go to a doctor to be diagnosed and after the consultation may be required to do a COVID-19 PCR **or** SARS-CoV-2 Antigen test. You will need to be referred by a registered healthcare practitioner (Doctor or Nurse) in order to access this benefit and payment will be accorded as per the Scheme Rules. Please note that your cover includes either a PCR **or** an Antigen test, but not both in one diagnosis. This is a pathology test and the results will be either positive or negative.

COVID-19 Access to Care

COVID-19 PCR Test OR Antigen Tests (Please refer to the Medshield PMB Guide for more detail)	· 1st COVID PCR or Antigen test included in Overall Annual Limit (OAL), whether the result is positive or negative. (Please read below as well) · 2nd and subsequent **negative** PCR or Antigen tests are paid from your Savings or Day-to-Day limit. If these are depleted you will be liable to pay out-of-pocket for these tests. Please note for reimbursement you would need to have been referred for testing by a registered healthcare practitioner (Doctor or Nurse) due to having signs and symptoms attributable to a COVID-19 infection. The aforementioned excludes tests for travel purposes. · 2nd and subsequent **positive** PCR or Antigen tests are funded from your available Day-to-Day benefit or Savings first, and if depleted from OAL because a positive result is PMB eligible. · You should email the positive results to member@medshield.co.za and then the pathology test will retrospective be paid as a PMB from Risk. You need to complete a PMB Application form to apply for related benefits to be paid from Risk (Clinical Protocols apply). Please note for reimbursement you would need to have been referred for testing by a registered healthcare practitioner (Doctor or Nurse) due to having signs and symptoms attributable to COVID-19 infection. The aforementioned excludes tests for travel purposes and non-symptomatic COVID-19 infections. - **The Day-to-Day limit** is an allocation to members from Risk. Therefore the COVID-19 treatment as a PMB will pay from your Day-to-Day limit until it is depleted and will then continue to pay from Risk (OAL). You need to complete a PMB Application form to apply for related benefits to be paid from Risk otherwise you might be responsible to settle the costs once your Day-to-Day benefit is depleted (Clinical Protocols apply). - **Personal Medical Savings Accounts** consist of actual contributions received from members, and therefore the costs of 2nd, and subsequent, positive tests will be retrospectively reviewed for possible reimbursement to the Savings account. You need to complete a PMB Application form to apply for related benefits to be paid from Risk (Clinical Protocols apply).

Fraud

Fraud presents a significant risk to the Scheme and members. The dishonesty of a few individuals may negatively impact the Scheme and distort the principles and trust that exist between the Scheme and its stakeholders. Fraud, for practical purposes, is defined as a dishonest, unethical, irregular, or illegal act or practice which is characterised by a deliberate intent at concealment of a matter of fact, whether by words, conduct, or false representation, which may result in a financial or non-financial loss to the Scheme. Fraud prevention and control is the responsibility of all Medshield members and service providers so if you suspect someone of committing fraud, report it to us immediately.
