5. Each plan's list of Networks and DSPs has a **SMART SEARCH GEO LOCATOR** designed and built-in to make life easy. The Smart Search Geolocator feature lets you quickly find what you're looking for by typing in relevant provider name or practice number, or you can search by province and city keywords such as location, provider name, or practice number. This feature saves you time and eliminates the need for long, tedious searches. **To access the search screen, click on your preferred network and the search options will appear.**

8. This Smart Search GEO Locator feature also allows you to **EXPORT AND DOWNLOAD A COMPREHENSIVE MICROSOFT EXCEL LIST** of all the General Practitioners (GPs) on the Medshield Network under your specific plan. How to Obtain a Hospital Pre-authorisation

Hospital pre-authorisation is an essential process that ensures cover for your hospital stay, treatment, or surgery. Getting approval in advance prevents unexpected out-of-pocket expenses and ensures your hospital admission is smooth and hassle-free.

Here is an easy guide to help you obtain hospital pre-authorisation with Medshield.

1.

Confirm the Hospital is in the Medshield Network

Before starting the pre-authorisation process, **check if the hospital you plan to use** is part of the Medshield Hospital Network for your benefit option or plan. You can easily verify this by visiting the Medshield website (**https://medshield.co.za/medshield-networks-2-0/**).

2.

Gather the Necessary Information

To obtain pre-authorisation, **make sure you have the following details** on hand:

- Membership number
- Patient's name and date of birth
- Contact details
- Reason for admission - ICD-10 and tariff codes (ask your doctor for these)
- Date and time of the procedure
- Name and contact information of the admitting doctor
- Name and contact information of the hospital
- Estimated length of stay

3.

Contact Medshield Hospital Benefit Management

Once you have all the necessary information, **you can request pre-authorisation** by:

- Calling Medshield Hospital Benefit Management at **086 000 2121** or **+27 11 671 2011**, *OR*
- Sending an email to **preauth@medshield.co.za** with the required information.

4.

Understand the Terms and Conditions

Upon receiving pre-authorisation, **ensure you understand the terms**, including which services and procedures are covered. In cases where your hospital stay is extended or additional services (e.g. physiotherapy/dietician) and procedures (e.g. prosthetics or MRI/CT scans) are required, these may require separate pre-authorisation. Failure to do so may result in out-of-pocket expenses.

5.

Pre-authorising Emergency Admissions

In case of an emergency, **you can get retrospective pre-authorisation within 48 hours** of hospital admission. If you do not follow this process, you may not be covered for the claims related to the emergency admission. A request for late hospital authorisation may be submitted however it will attract co-payments payable by you to the hospital.

6.

Follow Up and Adjust if needed

If your hospital admission is postponed or you are readmitted for the same condition, you must contact Medshield to **update the authorisation**. If the admission or procedure is cancelled, notify Medshield to cancel the pre-authorisation.

Following these steps ensure that your hospital admission goes smoothly and that the approved expenses are covered.

How to Apply for your Chronic Medicine and register on the Chronic Medicine Programme (CDL List)

If you have been diagnosed with a chronic condition you will require long-term medication. It is important to register your chronic medication so the payment of your medicine can be covered from your Chronic Medicine benefit and not your Day-to-Day benefits or Savings allocation.

FOLLOW THESE EASY STEPS:

1.

CALL OR EMAIL

Your doctor or Pharmacist can call Mediscor on **086 000 2120** (Choose the relevant option) or email **medshieldauths@mediscor.co.za**.

You will need the following information:

- Membership details: Benefit Option name and your membership number
- Patient details: Name, Dependant code (on the back of your membership card) and date of birth
- Your Doctor's details: Initials, surname and practice number
- Diagnosis details: What chronic condition has been diagnosed and the ICD-10 code
- Prescribed medicine: Medicine name, strength and dosing frequency

If additional information or a motivation is required, we will contact you and/or your treating doctor.

2.

REGISTRATION

Your registration will be evaluated in line with the Scheme Rules and Protocols by in-house qualified and registered pharmacists and pharmacy assistants. Your application will be processed according to the formularies appropriate for the condition and Benefit Option. Different types of formularies apply to the conditions covered under the various Benefit Options.

You can check online if your medication is on the formulary for your Benefit Option by visiting www.mediscor.co.za/search-client-medicine-Formulary/. If your medicine is not on the formulary for your Benefit Option you can ask your doctor if there is an alternative available that is on the formulary otherwise you will be liable for an upfront co-payment.

3.

AUTHORISATION

You will receive a standard medicine authorisation and treatment letter once your application for chronic medication has been processed.

If your registration requires additional test results or a motivation, you should follow up with your treating Doctor to provide this information.

4.

CHRONIC MEDICINE

Take your script to the Chronic Medicine Designated Service Provider (DSP) network pharmacy for your benefit option/plan and collect your medicine, or have it delivered.

How to Apply to Register on the Oncology Programme

The Medshield Oncology Disease Management Programme was created to ensure that cancer patients can access high-quality treatment and support through a network of designated oncology specialists. The Independent Clinical Oncology Network (ICON) is the Designated Service Provider (DSP) to deliver comprehensive cancer care.

Below is a step-by-step guide on applying and registering for Oncology benefits to receive the necessary care and treatment.

1.

Contact the Medshield Oncology Disease Management Team

When you receive a cancer diagnosis and are prepared to start treatment, contact **Medshield's Oncology Disease Management** team at **086 000 2121**. They will provide a list of ICON Oncology Group practices in your area. Once you have identified the most convenient practice, ask your doctor to refer you to an ICON Oncologist for treatment.

2.

Initial Consultation with an ICON Oncologist

Once referred, **schedule an appointment with your selected ICON Oncologist.** During the consultation, the Oncologist will discuss your treatment plan and submit it to Medshield for authorisation on your behalf.

3.

Treatment Plan Authorisation

The Medshield Oncology Disease Management team will collaborate with your ICON Oncologist to review and approve the treatment plan. **Once approved, an authorisation letter will be sent to you and your Oncologist**, detailing the treatment, quantities, and authorisation duration.

4.

Renewal of Treatment Plan

If your Oncologist is not part of the ICON DSP network, you must consult with an ICON Oncologist when renewing your treatment plan. To check if your Oncologist is part of the network, contact Medshield or visit https://medshield.co.za/medshield-networks-2-0/.

5.

Co-payments for Non-ICON Oncologists

If you continue treatment with a non-ICON Oncologist after renewing your plan, a co-payment will be applied, meaning Medshield will only cover a certain percentage of your claim. You will be responsible for the remaining balance.

6.

Follow Scheme Protocols

Oncology treatment is covered according to Medshield and ICON protocols, regardless of your Oncologist's network status. Ensure your Oncologist adheres to these protocols to avoid complications with claim payments.

These steps will ensure you receive comprehensive Oncology care through Medshield's ICON Network while maximising your benefits and minimising potential out-of-pocket costs.
